

Earthquake Project

(You have one class period)

Instructions: Go to the website > Ring of Fire > Websites > List of Major Earthquakes

Research one of the quakes and type a one page (double-spaced) paper with the following info:

- *Location
- *Date and time
- *Magnitude
- *Name of plates involved
- *Type of boundary
- *Interaction of plates (type of fault)
- *The immediate effects to the earth/landscape
- *Immediate effects to people
- *Global effects, if any
- *Long term effects
- *Any other relevant information

Rubric

1/2 page = 50%

3/4 page = 75%

Full Page = 90 - 100% depending on content
